PROFESSIONAL SUMMARY

Java Backend Developer with production internship experience delivering **100+ RESTful APIs** using Core Java, Spring Boot, and Spring Security. Experienced in secure authentication and authorization (JWT, OTP, RBAC), payment gateway integration, real-time messaging, and Redis-backed asynchronous processing over PostgreSQL. Experienced in AWS cloud infrastructure, containerized deployments, layered architecture, concurrency-safe transactional workflows, and Agile delivery.

TECHNICAL SKILLS

Languages & Frameworks	Java (Core, 17, 21), SQL, Spring Boot, Spring Security, Hibernate / JPA
Databases	PostgreSQL, MySQL, Redis (Caching & Queues), Flyway
Cloud & DevOps	AWS (EC2, S3, RDS, IAM, VPC), Docker, Linux, Git, GitHub, CI/CD
Testing & Tools	JUnit 5, Mockito, Postman, Swagger / OpenAPI, Maven, Gradle
Concepts	REST API Design, JWT & RBAC, Concurrency & Locks, System Design, Agile SDLC

PROFESSIONAL EXPERIENCE

DeepLure Research Pvt Ltd — Backend Engineer Intern

May 2026 – Present

Java · Spring Boot · Spring Security · PostgreSQL · Redis · AWS · Docker · Razorpay

- Designed and shipped **100+ production REST APIs** in Spring Boot across a B2B marketplace and on-demand services platform, covering authentication, catalogue, orders, payments, and partner/admin modules.
- Implemented secure authentication and authorization using **JWT and role-based access control (RBAC)**, with OTP verification delivered over SMS and email.
- Integrated the **Razorpay payment gateway** for orders, wallets, and refunds, applying **idempotency keys and optimistic/pessimistic locking** to prevent double-charges and race conditions under concurrent requests.
- Configured and maintained backend workloads on **AWS (EC2, S3, RDS)** and containerized services using **Docker** for reliable multi-environment deployment.
- Built real-time chat and support ticketing over **WebSocket/STOMP**, with Firebase Cloud Messaging push notifications and third-party SMS integration.
- Engineered **Redis-backed asynchronous workers** for notifications, payment reconciliation, and booking expiry, reducing database load by **~40%** through Redis caching and query optimization.
- Modeled normalized PostgreSQL schemas with **Hibernate/JPA and versioned Flyway migrations**; wrote unit and integration tests with JUnit 5 and Mockito in Agile delivery cycles.

SmartBridge Educational Services (APSCHE) — Data Analytics Intern

May 2025 – Jul 2025

- Cleaned and transformed toy-manufacturing sales datasets using SQL joins, filters, and aggregate queries, and built 3 Tableau dashboards for state-level production and inventory review.

PROJECTS

Flight Booking System

Aug 2025 – Jan 2026

Spring Boot · Spring Security · MySQL · Redis · Docker · AWS | [GitHub](#)

- Developed **14+ REST APIs** for flight search, booking, cancellation, and authentication using layered architecture (Controller → Service → Repository) with JWT and role-based access control.
- Implemented **concurrency-safe seat allocation with transactional rollback** on cancellation, preventing overbooking and inventory drift under parallel requests.
- Added **Redis caching** for search results, containerized the service with **Docker**, documented endpoints with Swagger UI, and applied centralized exception handling across the API.

User Management System

Oct 2024 – Dec 2024

Spring Boot · Hibernate/JPA · MySQL | [GitHub](#)

- Built a CRUD REST API with dynamic search and filtering, request validation, and centralized exception handling.
- Modeled a normalized 6-table relational schema in MySQL with Hibernate/JPA entity mappings, and tested and documented all endpoints in Postman.

EDUCATION

Sri Venkateswara College of Engineering, Tirupati

2022 – May 2026

B.Tech, Electronics & Communication Engineering

CGPA: 8.5 / 10

CERTIFICATIONS

Oracle Cloud Infrastructure (OCI) Foundations Associate — Oracle (Sep 2025) · **Problem Solving (Intermediate)** — HackerRank (Apr 2026) · **SQL (Intermediate)** — HackerRank (Mar 2026) · **Java Programming** — GeeksforGeeks (Mar 2026)

ACHIEVEMENTS

- Built a Spring Boot backend for a Learning Management System at **Design Spark Challenge 2026**, a 48-hour innovation marathon hosted by Ratan Tata Innovation Hub (RTIH), Andhra Pradesh.
- Solved **100+ Data Structures & Algorithms** problems on LeetCode.
